Date of Reported Weight 07/14/2024

Description

This year was a hard breeding year for me. I have 2 Californian breeding does. Both were bred. One mom had 13 kits all of which were doa. We believe the first kit was born breach and got stuck. My second mom had 5. 2 of them were doa so I had three kits to choose from. I also wanted to keep a doe so I have more breeding stock for next year

Quantity: 1
