Description

My name is Jacob and the greatest thing I learned this year is sportsmanship. I also learned everything I know about poultry - which is A LOT! This year I chose Jersey Giants because they are known to be heavy birds, they are cold hearty, and strong. They are a great replacement for a turkey! Jersey Giants lay 150-200 brown eggs each year. The hens will weigh 10 pounds at maturity and are an excellent meat source or can also be used for eggs.
