Description

This eight-month-old lamb is a mix of Suffolk and Hampshire. His name is Tigger, and he is my best friend; I've spent much time caring for and loving him! Tigger is a timid lamb but friendly once he gets to know you. He is also a super stubborn lamb. Tigger was fed a 17% protein show lamb feed. He has access to fresh water, grass, and hay all day. He spent much of his time getting into trouble and annoying his brother, Eeyore. He would make a great addition as a pet or fill your freezer full! I appreciate your consideration!
