Description

meet Chalino, I would say he has been through it. he got dehorned and castrated which took a lot from him for a few months but right after that he got right back up just like nothing ever happened. Chalino is a very unique goat he has a very outgoing personality I am very proud of what he has become. let me tell you about myself, I am a senior attending high school I am also an athlete I play soccer at the high school. I would say I balance school soccer and FFA pretty well, I am a first generation FFA member and athlete, so I like to say I am the first ever in my family and that's what keeps me going I am very proud of my accomplishments and where I am at and can't wait to use of what all I have learned in my time in FFA in the real world!
