Animal Weight (in Pounds) 149

Date of Reported Weight 03/27/2025

Show Placing 1st in class

Special Placing 7th overall

Sex Wether

Description

Hello my name is Madysen Hanks and I'm from BH FFA. This is my lamb Rocko he is a medium wool wether and weighs about 150 lbs. This season I have only attended 1 prospect show, and got 4th in my class. When I got my lamb he came very skinny, but with the help of my Ag teacher he taught me the correct amount of feed to give him and to never rush the growing process. This year I learned that bigger isn't always better, and that you should never rush the process when showing livestock.
