**City** Lumberton

### **Description**

My name is Grayson Pierce, I am a Freshman at Lumberton ISD. This is my second year of showing and to say that I love it is a understatement! My family and I lives revolve around Agriculture and the dedication and experiences that go with it. I have followed in my mother, grandmother and great grandmothers footsteps of the love of showing livestock animals from steers, pigs, goats and chickens. Every year I gain new knowledge, experience and a deeper love with each project.

This year I started out with 25 chickens and only lost 1! I have enjoyed my time with them day in and day out caring for them, stirring them up all hours of the night and day, and staying faithful to their care. These birds were prayed over, loved on and even talked to on a daily basis to ensure not only success in winning but also simply making it to the finish line.

I want to personally thank not only who wins this particular bid, but also want to personally thank every single bidder in this auction for if it wasnt for the support and dedication to this organization and the desire to enrich each of us kids lives this all

would not be possible! So, THANK YOU for your willingness to play a vital role in our agriculture career.

These proceeds will be assisting me in my next pen of birds as well as my next new adventure of my very first show heifer that will be joining our family end of April. Again, thank you from the bottom of our family's hearts.

**Quantity: 1**
