**FFA Chapter or 4H Club Name** Beaumont FFA

**County** Texas

**Animal Weight (in Pounds)** 1454

**Date of Reported Weight** 03/31/2025

**EAR TAG#** 109

**Short Description** This here is my F1 steer, Sebastian. He came to me from a breeder in Sour Lake, Texas on April 28, 2024. Sebastian is very curious, which leads him to be a troublemaker. His favorite time is feeding time, he refuses to do anything until he eats (I had to break that habit). I slowly learned that although stubborn at first, the more he saw me and knew my purpose, he showed his true self. Along the way I made many mistakes, as it is my very first time showing livestock. One mistake I learned from was the quick switch from one hay to another. This mistake caused Sebastian to have Bovine Respiratory Disease for a whole week, as I had to learn the steps to properly treat it. Unfortunately, he had his feed pulled so he had to gain the weight he had lost back. Our best show was at the Texas Rice Festival, we won our first ribbon, 5th place, I was not only proud of myself, but very proud of Sebastian. Therefore, this awesome opportunity has taught me great responsibility, patience, and deep respect for animals. If it wasn't for my AG instructors and my parents, making it to this final moment would not be possible.

**City** Beaumont

**Breed** American

## Description

This here is my F1 steer, Sebastian. He came to me from a breeder in Sour Lake, Texas on April 28, 2024. Sebastian is very curious, which leads him to be a troublemaker. His favorite time is feeding time, he refuses to do anything until he eats (I had to break that habit). I slowly learned that although stubborn at first, the more he saw me and knew my purpose, he showed his true self. Along the way I made many mistakes, as it is my very first time showing livestock. One mistake I learned from was the quick switch from one hay to another. This mistake caused Sebastian to have Bovine Respiratory Disease for a whole week, as I had to learn the steps to properly treat it. Unfortunately, he had his feed pulled so he had to gain the weight he had lost back. Our best show was at the Texas Rice Festival. Sebastian weighed 1065 !! We ended up winning our first ribbon, 5th place, I was not only proud of myself, but very proud of Sebastian. Therefore, this awesome opportunity has taught me great responsibility, patience, and deep respect for animals. If it wasn't for my AG instructors and my parents, making it to this final moment would not be possible.
