**Date of Reported Weight** 03/29/2025

**EAR TAG#** 599

**Breed** Hampshire cross

**Sex** Gilt

### **Description**

Howdy! My name is Kayden Odom from Nome, Texas. This year I have raised an F-1 heifer, a market hog, and a market steer along with my registered brahman cattle. I am a 4th generation rancher and work hard everyday to keep agriculture alive and well.

For the last five years, I have raised market hogs. Each of these hogs have taught me about the pork industry and how it could be beneficial. This pig has taught me that with a good feeding program, clean water, and with proper vaccination and worming it is possible for a smaller, younger pig to be market ready.

At the end of this project, it is my goal to raise as much money as possible to help support my future projects, as well as having money to save to further my education and move me into a career. I would like to be a welder after I graduate from college.

**Quantity: 1**
