Description

I'm Cassidy Headrick, currently a junior at Dayton High School, and this fryer pen is out of my best line, grown for meat quality and overall condition. I bred this pen personally and observed their growth, showing a good weight for their age. They each hold promise if looking for a breeding rabbit/roaster, and a satisfactory meal if looking for meat. Any money I receive will go towards my investments in bettering my rabbits and college savings.

Quantity: 1
