Validation Tag or Show reference# 789

County San Joaquin

City Lodi

Animal Weight (in Pounds) 203

Date of Reported Weight 05/23/2020

Description

Hello! My name is Sienna Wallior and I am going into eighth grade at Lodi Middle School. This is my fourth year in Tokay Colony 4-H and I am raising a market swine for Agfest. My hobbies are: riding my donkey, wrangling critters, helping on our hobby farm.

My pig that I am raising is named Chomp because on the first day I got her she bit my toes. My pig is seven months old. She was born November 11, 2019 and her beginning weight when I got her was 51 lbs. She is fed 3 pounds

twice daily with ShowMaker 100. As of May 23, 2020 she is 203 lbs. She will weigh 215 lbs by the time we need to drop her off. Her water is always fresh and accessible. I go out and check on her at least twice a day because she dumps her water bucket quite often. At all of our meetings my pig leader teaches me how to properly work with my pig. I bought my pig from Lonnie and Austin Edwards. They live in Clements, California.

I took out a \$800 loan with F&M Bank. My pig was \$400 and feed was considerably close to \$300 and \$80-\$100 for housing/vetting supplies. With the money I get from my pig, I plan to pay back my loan and put the rest of the money towards my next year's 4-H project.

Please join us for our auction [Friday, June 12, 2020 8:00AM-Sunday, June 14, 2020 9:00PM](#)
