Description

I am Leilah and this is my third year raising turkey poults. I have learned a great deal about what it takes to raise turkeys, especially about getting your poults early and high protien feed. This year I was able to get my Poults from Jills Feed in early spring and have raised them into the large market turkeys. I enjoy taking these lovely birds for evening strolls through the grass. Any of my big birds will make a delicious Thanksgiving feast. They have been devouring their 28 percent protien rations morning and night. They are plump with giant drum stick legs. Seeking a dinner date with a generous buyer in the near future.
