County San Joaquin

City Acampo

Animal Weight (in Pounds) 220

Date of Reported Weight 05/29/2020

Description

Hello,

My name is William Wood. This is the third year I have been a member of the Alpine Victor 4-H Club and my third year raising a pig. I have learned so much over the years and best practices for what works in raising a pig and what doesn't. My pig weighed 220 pounds on May 29, 2020.

I've had my pig Oreo since February and she will go to the online auction in June. Taking care of Oreo has shown me responsibility on a daily basis. I feed her, walk her, bathe and clean her pig pen. I have gotten up earlier before school every day to make sure she is fed. When I get home from school, I check on her, feed her and walk her to get her exercise. She has been the hardest pig that I've ever had and has a mind of her

own and is very stubborn. It hasn't been easy walking or training her, but I'm trying my best. She loves to spend time in her pig pen.

I will miss her when she is sold, but I have learned a lot about responsibility and know this experience will help me in the future and plan for college.

Thank you for your support,
William Wood
