Description

Meet my cross bred market lamb Chonchis, Spanish for chunky. Her name comes from how thick her wool grows and her love of eating. She is a timid but loud lamb, she never hesitates to let me know when she is hungry. I received her in January from a breeder in Oakdale, when she was just 70 pounds and 3 months. Chonchis is my third market lamb , but she never fails to teach me something new about handling livestock and the importance of patience. She is always keeping me on my toes and through these abnormal times keeping me positive and active!
