Description

Meet my crossbred fiesty and strong Lamb, Link, who placed 4th in his weight class. I got him from a breeder this past February and he weighed just 78 pounds. Weighing only 65 pounds myself, he was very hard to control and work with when I first aquired him. After being trampled by him a couple times when working with him daily, Link made me tougher and proved that I'm stronger than I realized. I learned with determination I can handle an animal that weighs a lot more than me!
