**EAR TAG#** 274

**County** Elbert

**City** Elizabeth

**Animal Weight (in Pounds)** 136

**Date of Reported Weight** 07/28/2025

**Sex** Wether

### **Description**

Hello,

My name is Logan Claar, and I'm 14 years old. This is my 6th year in 4-H, which means I've been doing this almost half my life, and my third year in the Market Sheep project. Besides raising sheep, I also enjoy projects in model rocketry, muzzleloader, shotgun, western heritage, and metalworking. You could say I'm preparing to either build a spaceship or survive the Wild West!

Let me introduce you to my market sheep project Buster the lamb. I bought Buster from a family friend in Kansas, and he quickly became part of the crew. He's got personality, charm, and a habit of goofing off with the other animals when he thinks no one's watching. Raising him has been a fun and rewarding adventure.

One of the biggest things I've learned this year was that washing a sheep really well before shearing makes a big difference, especially if you want to keep your arms from falling off while using the shears. And trust me, sharp shears are your best friend when you're wrangling a fluffy tornado like Buster.

I plan to use the money I earn from selling Buster to help buy my first vehicle. I'm not sure what it'll be yet, but I'm hoping it has four wheels and doesn't eat hay.

Thank you for supporting my 4-H journey!

**Sincerely,**  
Logan Claar
