**Animal Weight (in Pounds)** 240

**EAR TAG#** 849

**Breed** Cross

**Sex** Barrow

### **Description**

This year, I had the incredible opportunity to raise and show a market hog as part of my 4-H livestock project. From the early days of selecting the right pig to months of daily care, feeding, and hands-on work, this project has taught me more than just animal care — it's taught me responsibility, commitment, and the value of hard work.

This hog has been on a carefully managed feeding program to ensure optimal growth and condition, and I've spent countless hours training and preparing for the show ring. Needless to say I've worked hard to ensure this hog was raised with care and attention to quality.

By purchasing my hog, you're not only investing in quality pork — you're investing in the future of agriculture and helping support the next generation of agricultural leaders. Your support makes experiences like this possible.

Thank you for considering my project, and for supporting 4-H and youth development.

**Quantity:** 240
