Description

This year I learned a lot about showing turkeys. I thought it would be like chasing the wild turkeys that run around our yard. But it was very different! When we first got our turkeys, they looked like chickens with long legs. They grew really fast! We started out with 3 and one died. We then got 3 more and they all did good. They need clean water, good food, and a safe place to live. When we moved them outside, we had to protect them from coyotes and hawks. There are a lot of those near our home. I want to thank my parents for helping me and getting the supplies I needed. I also want to thank a leader named John Bakker. He taught me how to take care of turkeys and how to do well at the fair. Now the turkeys follow my sister and me around like dogs. I had a lot of fun raising them and learning about them! The most important thing is to take care of an animal even if you are tired. I hope to do this project again next year and learn even more.
