County San Joaquin

City Escalon

Animal Weight (in Pounds) 87

Date of Reported Weight 05/24/2020

Description

I am a current 4th grader and member of Farmington 4H. For the last few years I have asked my parents to let me show an animal in 4H, but I wasn't old enough. I was finally able to this year. The animal I chose was a goat. His name is Willy.

I have had Willy since the beginning of January. I enjoy going out every morning and night to feed him. Willy gets excited when he gets to eat. We feed him quality goat feed and he loves to munch on hay. I also have been walking him with his halter to help him get used to it for showmanship at AgFest. He does really good when I walk him, though sometimes he gets mad when he has to have the halter on. Now that it's getting hotter, I check morning, lunch and night to make sure he has water. Sometimes I sit down in his pen when it is raining so he is not scared. It is hard to keep water out of his pen. But I try my hardest. Goats don't like water!

This year I have learned a lot about taking care of goats. For my first year, I am disappointed that I won't experience going to fair, but I do hope to still find a buyer for my goat.
