**City** Farmington

### **Description**

Hello, my name is Kelly Kroon from Farmington 4H and I will be selling my black Angus cross steer, Buddy. This past year raising my market project has been challenging and demanding, however very fun and exciting as well. Like every year, I learn so much from my animal, and we both grow together. Buddy has shown me to have patience and to abide by my responsibilities. Not only that, but he has also shown me how to manage my time and money, which is very important to how I will handle my future. We have spent so much time together as I walked him, washed him, fed him, and bonded with him. Although I will not be able to show my steer like I originally anticipated, I am still very thankful for my experience. It is very rewarding to see how Buddy has grown and to see him finished. He weighs around 1350 pounds, and I am expecting my steer to gain even more weight. I would appreciate it very much if you consider bidding on my steer or even supporting me through an add on. Thank you for your time and for helping 4H and FFA students in San Joaquin county!

Buddy placed 3rd in his market class!

**Quantity:** 1
