**FFA Chapter or 4H Club Name** Linden FFA

**County** San Joaquin

**Animal Weight (in Pounds)** 1101

**Date of Reported Weight** 05/24/2020

**City** Stockton

### **Description**

Hello, this is my Black Angus steer Clayton. My steer is from my own herd that I started as a FFA Project my Freshman Year. Clayton is from my #649 cow and was sired artificially by BigGuns. I raised Clayton since the day he was born on February 14, 2019. I took Clayton off of pasture in late September and started halter breaking and feeding Clayton grain. Clayton was fed strictly Rival Beast show grain. Clayton was fed approximately 14-16 pounds of grain daily with grass hay. Since September I have put my max amount of effort into making Clayton the best show steer that he possible could be. Thank you for your consideration and support!

**Quantity:** 1
