Description

These are Beveren white rabbits with blue eyes. They are unlike other rabbits and very unique because they have long shoulders and a mandolin shape instead of a ball shape. They are fun and playful and as my family would say, "They make the perfect rabbit stew." These amazing rabbits even managed to take 4th place. They are worth the money I promise you. They are absolutely delicious! This project has taught me so much including time management and responsibility. I had such a fun time training and taking care of these rabbits. If you would like a name to go with each rabbit, they are called Breakfast, Lunch, and Dinner.
