Validation Tag or Show reference# 8445

County San Joaquin

City Lodi

Animal Weight (in Pounds) 94

Date of Reported Weight 05/25/2020

Description

I am Jessica Holloway and I am selling my Boer goat named Basil. Basil has been the best project goat I have purchased in the 3 years I have been showing. He not only has the best conformation, but he has an amazing personality. When I purchased Basil on March 8th he weighed 70 pounds. At sale time I estimate he will weigh around 100 pounds. I was hoping to show him at a couple of jackpots prior to AgFest but unfortunately, they were cancelled. In our virtual AgFest show we placed 4th in the market class for our weight bracket. I am happy about that, but think if I had been able to brace him better we would have placed higher. (Bracing a goat shows off their muscles and meaty areas.) Basil is very playful so bracing him is hard to do because he just wants to play. I truly enjoy raising and showing Boer goats and am already looking forward to next show season. If you purchase Basil or donate through the add on program the money will cover my expenses from this year, and be my start up money for next year. Any profits are going into my college fund. Thank you for your support!
