**Validation Tag or Show reference#** 684

**County** San Joaquin

**City** Linen

**Animal Weight (in Pounds)** 240

**Date of Reported Weight** 05/24/2020

### **Description**

This has been a challenging year for our country as well as my swine project. My family and I purchased three pigs, one of whom was mine. Dwayne had a cough when I purchased him. That cough developed into pneumonia and even multiple rounds of antibiotics were futile to improve his health. Thankfully, my parents exchanged their pig for mine. He is named Geico and has fulfilled his name as the insurance pig. I have been exercising Geico and feeding him custom nutrition. I even taught him how to sit. He is a Hampshire crossbred barrow with beautiful confirmation. My project has taught me to adapt to the situation at hand and the importance of having a backup plan as well as record keeping. It cost \$825 to raise my hog between the cost of feed, veterinary bills, supplies and the purchase cost of the animal. My brother and I had fun dressing up for the costume contest. We even won first place as chefs and our pigs in a blanket!! I hope you will support my project!
