**County** Merced

**City** Livingston

**Animal Weight (in Pounds)** 87

**Date of Reported Weight** 06/05/2020

### **Description**

Hello! My name is Lauryn Franzese and I am currently a junior attending Livingston High School. I am currently serving as the 2019-2020 Livingston FFA Chapter President and the 2020-2021 Merced-Mariposa Section President, and I am raising a market goat as my supervised agricultural experience project. This is the first time I have raised a goat, and I am having an amazing experience so far. This year I purchased my market goat at the end of January and since then, I have taken part in feeding, watering, and cleaning out my goat's pen. This supervised agricultural experience project has taught me how to successfully budget my project to allow for feed costs, fair entry fees, and any other expenses. Through being involved with this project and several other FFA activities, I have learned valuable skills such as commitment, responsibility, teamwork, and leadership skills that will last a lifetime.

Throughout my high school career, I have been involved in several different sports and clubs. I played on the varsity volleyball and track teams. This year, I was the Varsity Pole Vault Captain. I

am also a VFW Representative and a member of the California Scholarship Federation. Since 6th grade, I have earned straight A's in all my classes, including all my advanced classes. I strive for academic success and have a 4.52 grade point average. The FFA organization has been an amazing opportunity for me to grow as a leader, but more importantly as a person. This organization has taught me to overcome all challenges that may stand in my way. I am beyond thankful for all the opportunities this organization has given me, and I am extremely grateful for the home this organization has provided me. My ultimate goal is to attend Cal Poly SLO to pursue a degree both in Agricultural Communications and Computer Science/Software Engineering to one day become a Chief of Information Officer for a company in the Agricultural industry. The sale of my goat would enable me to save the money for college to help me fulfill my educational dream. Thank you for supporting my project!
