Date of Reported Weight 05/28/2020

Description

Hello! My name is Anna Page and these pigs were raised from my own Sow. I bred her from a boar from Small Town Genetics and a Sow from Ottenwalter Pigs. I have been caring for the pigs since they were born on New Years Eve. So for me I have had a great deal of time and work with this group of pigs. I currently am a Freshman at Lathrop High School and I am able to keep my swine project at the Manteca Unified Farm. I hope that you will help with this amazing project that I have been working on for the past months. My plan is to continue raising market pigs for my time in FFA.

Quantity: 1
