Validation Tag or Show reference# 652

County San Joaquin

City Manteca

Animal Weight (in Pounds) 255

Date of Reported Weight 06/06/2020

Description

Hello, my name is Kyle VanArsdell. I'm 14 years old and I'm a proud member of the Escalon 4H group. I have been raising a pig for the fifth year in a row, to show and sell at the San Joaquin County AgFest. I was disappointed to learn that the fair was canceled for this year and that AgFest activities would be held online, but it didn't change the fact that I have been working hard with my pig to get him ready for the show and sale. He is looking really good! It has been strange not having baseball and having to attend school virtually from home, but it has allowed me the time to continue working with my pig, Lester. Raising a market animal takes a lot of time and responsibility, but it is also a lot of fun and very rewarding.

Bidding on my project helps to offset the expense of caring for my pig (feed, immunizations, supplies, etc.) and is tax deductible. If I am lucky enough to have money left over after paying for my pig's expenses, I hope to save the rest for college. You can also contribute to my AgEducation scholarship at <https://sanjoaquinagfest.org/agriculture-education-scholarship-program/> which is tax deductible as well. Thank you for considering bidding-on or buying my pig. I really appreciate you taking the time to look!

Sincerely,

Kyle VanArsdell
