Animal Weight (in Pounds) 145

Date of Reported Weight 05/24/2020

Description

Hi, my name is Chendyl Mettler. I'm 9 years old and I am part of Alpine-Victor 4-H. This is my first year raising a market animal and I was so excited to get a lamb to show. My lamb was very crazy when I first got her but I learned how to halter break her and she is tame now. I named her Nibbles because she loves to nibble on everything even my clothes and fingers. I am responsible for feeding her and making sure she has clean water. I also clean her pen. She grew very fast and weighs double what I weigh! Sometimes she is hard to keep under control but I love being with her. I go to AgFest every year with my older brother and sister and was looking forward to showing her this year, but we aren't able to. Thank you for your support with buying my lamb through through the virtual auction.
