**Date of Reported Weight** 06/01/2020

### **Description**

I have participated in FFA for all four years, exhibiting market rabbits each year. I take pride in my projects and in being a manager of the Rabbitry program for Atwater FFA. I have bred and nurtured these rabbits, taking care to ensure their peak condition. I have always had an appreciation and a passion about animal anatomy and science. I will be attending Cal Poly, San Luis Obispo, and major in Animal Science on Pre-Vet track. The money I receive from this project will go towards funding the technology and textbooks necessary to be successful there.

**Quantity:** 1
