Validation Tag or Show reference# 540

County Merced

City Atwater

Animal Weight (in Pounds) 278

Date of Reported Weight 06/07/2020

Description

Hello, my name is Jacob Campos from Buhach Colony FFA. This is my light cross pig, his name is Colt. I purchased him from a breeder in early February. Light only describes his color not his weight. He weighs in at 278! He is my 9th pig that I have raised through my years in 4-H and FFA. Through this quarantine Colt has been the only friend I have been able to see everyday. As I graduated from high school last week, Colt will be the last pig I will raise for Merced Fair. Raising pigs has always been a pleasure, they are so smart and each one has its own personality. It has not always been easy to have a swine project, sometimes things don't go the way you expect but you learn more from the challenges you face.

Looking back on my years in FFA, I have participated in Ag Leadership, Job Interview Contests, SAE projects for Swine and Rabbits and was able to serve as Greenhand Secretary. My experiences in FFA have led me to my future goal of becoming an

Agronomist. I will be starting at Modesto Junior College this summer with a major in Plant Science.
