**Animal Weight (in Pounds)** 70 pounds

**Date of Reported Weight** 05/27/2020

### **Description**

I have a goat I bought the goat in February. He is at the school farm. He weighed thirty pounds when I got him. I feed him in the morning and at night every day . I feed him two ounces every day. I work him on the weekend and sometimes during the week. I have been in FFA for one year. I put thirty nine pounds on him after I got him. It taught me time management and not to get stressed when working the animal. I have put fifty hours into my goat and I'm very impressed how he turned out to be. He is built very well.

**Quantity:** 1
