FFA Chapter or 4H Club Name Weston Ranch FFA

Validation Tag or Show reference# #8422

County San Joaquin County

City Manteca

Animal Weight (in Pounds) 74

Date of Reported Weight 05/28/2020

Description

1 Head, Market Goat, Eartag #2005. Sired by Bronc from Top of the Hill Show Stock. 75 lbs Named Whiskey. Whiskey placed first in his class, (Break 3).

Whiskey is on a textured lamb feed and goat pellet and a vitamin supplement for added nutrients. He is also given a handful of alfalfa at night to help his ruminant digestive system. Whiskey has been wormed once a month to prevent any parasite issues. Whiskey enjoys walks and he gets his legs washed every other day to promote hair growth.

This year was especially challenging year as a graduating senior, but I enjoyed every minute of it. This is my first year raising a market goat, the past two years I have raised market sheep. As a senior in high school, I wanted to experience something new, so I decided to raise a market goat. Whiskey has been a amazing project and I have learned many new skills from my project and look forward to pursuing a career in the

agriculture industry. I will be attending Modesto Junior College in the fall and majoring in animal science, the money I raise from this project will help cover the cost of college expenses.
