Validation Tag or Show reference# 637

County Merced

City Merced

Animal Weight (in Pounds) 226

Date of Reported Weight 05/23/2020

Description

Hi my name is Bailey Chambers. I attend pioneer elementary school in merced. I am 10 years old and in 5th grade. In school I achieved A-Honor roll for the past three-years. I play the clarinet, and I am the Activity Director. Outside of school I play softball and volleyball.

This will be my second year in the 4-H club. Last year I had lamb. Doing the fair has been the best experience of my life because I love animals, it also teaches responsibility, and lastly when I'm older I want to be a vet and by doing this I will already have learned about animals because of doing the fair. I have a pig named bubbles. This year I fed her, bathed her, washed her pen, walked her, clipped her and loved her. This year I have learned so much about bubbles such as learning how to walk her, how to properly bathe my pig, and learned that her breed is a Tri. Bubbles and I are upset that we didn't get to go to the fair this year because of Covid -19. Not only did it affect the fair for

me but it also affected softball, school, and so much more. We are grateful for the vertical auction, which we will be participating in. I really hope I can have your support. If you're interested in buying bubbles please contact me at my mom's phone number 209-628-4149. Thanks for any donations in advance.

Sincerely,

Bailey Chambers
