Animal Weight (in Pounds) 221.6
Date of Reported Weight 05/29/2020

## **Description**

I am Brandon Sequeira, a senior at Buhach Colony High School. I have been showing swine now for 3 years, and have learned the responsibilies and life knowledge that comes from having the experience of showing. This year I acquired a Cross breed gilt from a local breeder in the begining of January for \$400. I named my gilt Barbie Q and it weighed 60 pounds when I got her and aproximatly ways 220 pounds now. I have been walking and training my pig for 30 mins a day since I got her. I have learned alot of knowledge about agriculture and resposibility over the years and am excited to go forth and put this knowlege in my everyday life.
