**County** Merced

**City** Merced

**Animal Weight (in Pounds)** 265

**Date of Reported Weight** 06/08/2020

### **Description**

Hello! My name is Marisa Ochoa and I'm a Sophomore from Le Grand FFA and a Type 1 Diabetic. I enjoy encouraging myself to do well in academics and in the multiple clubs I partake in. One of the clubs that I partake in and enjoy is FFA. Since joining FFA, I have found a passion in raising and showing swine. Unfortunately, this year things have been different due to the COVID-19 pandemic. I was looking forward to showing my pig this year at the Merced County Fair along with many others. My barrow is a light cross, which is between Hampshire and Yorkshire that was purchased from Small Town Genetics in Denair, CA. with funds earned from last year's sale. I have worked with him daily for multiple hours after school and on weekends (Even on days when I wasn't feeling well due to my diabetic lows). Many hours were spent feeding, walking, bathing, cleaning out his stall, and getting my pig show ready. He weighs in at about 265 pounds and is well built.

Whether you bid or choose to donate through add on, I would like the opportunity to thank you in advance for your support and taking the time reading about my barrow and I.

**Quantity: 1**
