Description

I have a meat pen consisting of three rabbits named K1 "Billy Bob", K2 "Tweeter", and K3 "Mox". This experience has taught me good life experiences. A few examples are time management and responsibility. I also thought it was going to be easier than it was but when I got the rabbits on May 21, I did not think or know the amount of work I had ahead of me and the responsibility of raising an animal. The constant changing ice water bottles, or the checking the temperature in the cage or the changing of the shavings, that go everywhere. But overall it was a great experience and I wouldn't change anything about it.
